GOVERNMENT OF INDIA
MINISTRY OF IRRIGATION & POWER.

No. Dd. 1. Dated New Delhi, the 17 August 1960.

From

Shri S. Nealakantam,
Deputy Secretary to the Government of India.

To

The Chief Secretary to the Government of Mysore,
Mysore.

Subject:- Loan of certain suitable engineering officers from States for appointment in the Central Designs Organisation of the Central Waterpower, Irrigation and Navigation Commission.

Sir,

I am directed to say that the Government of India have employed one Mr. A.V. Karpov, one of the top ranking Consulting Engineers from U.S.A. as Director, Dams Design, in the Central Designs Organisation of the Central Waterpower, Irrigation and Navigation Commission on a contract basis for one year in the first instance. They are most anxious to attach a senior Indian engineering officer as his 'under-study' who should eventually be in a position to be a suitable successor to Mr. Karpov when he leaves for America in a year or two. This officer must be of sufficient standing with a good background of design and construction so that he may be able to take full advantage of his association with Mr. Karpov during the period he works as 'under-study' and can successfully replace him in due course.

2. The Central Waterpower, Irrigation and Navigation Commission are at present short of senior engineering officers and the few, who are available, (those of them who could fit in this job) have either got full-time jobs of great responsibility at the headquarters of the Commission or on construction and investigation work in the project areas. The only alternative left for the Government of India is therefore to obtain a suitable officer from one of the States. The States most likely to have such an officer are Bombay, Madras, Punjab and Uttar Pradesh. I am accordingly to state that the Government of India would be very much grateful if

the Government of Mysore could kindly suggest the names of a suitable engineering officer.

P. E. SECRETARIAT
3412
Date

The cases of such officers may kindly be forwarded along with particulars of their service, present pay and copies of their confidential records for consideration by the Government of India.

3. The officers other than those mentioned above, suggested by the State Governments, should preferably be of the Indian Service of Engineers, of 45 to 48 age group as far as possible. The terms of deputation will be governed by this Ministry's letter No.PW.I-1(51)-CWINC, dated the 17th March 1947, amended by letter No. PW.II-5(38), dated the 21st May 1949 (copy enclosed).

P.W. Secy (W&P)
CHIEF SECRETARY
17 AUG 1952
GOVT. OF MYSORE

4. It is needless to point out that the experience gained by the officer on loan in the Central Designs Organisation will be of great value to the States for the design of their own future projects. In addition the Central Designs Organisation of the Central Waterpower, Irrigation and Navigation Commission will be prepared to assist the States Governments in the preparation and/or review of any designs required or prepared in the provinces.

5. A very early reply from the State Government is solicited.

Yours faithfully,

12.8.52

(S. Neelakantan)
Deputy Secretary to the Government of India.

Subject: Loan of certain suitable engineering officers from States for appointment in the Central Designs Organisation of the Central Waterpower Irrigation and Navigation Commission.

.....

Sir,

I am directed to invite a reference to your letter No. P.W.4878 dated 24th August 1950,

on the above subject, and to enclose a copy of this Ministry's letter No. DW.1-1(31)CWINC, dated the 17th March 1947, as amended by subsequent letter No. DW.II-3(89), dated the 21st May 1949, which is referred to in the letter quoted above.

Yours faithfully,

Sardari Lall Vij

(Sardari Lall Vij)
Under Secretary to the Government of India.

D.A. Referred to.

'prem'

Copy of Ministry of Works, Mines and Power letter No.DWI-I(31)C/INC dated the 17th March 1947, as amended by Ministry of W.M.P. letter No.DW-II-3(39) dated 21.5.49 regarding fixing of pay of officers on deputation from the provinces in the Central Waterways, Irrigation and Navigation Commission, New Delhi.

I am directed to refer to this Department letter No.DW.101(2) dated the 21st. January 1946, on the subject mentioned above, and to say that the Governor General in Council has decided that the following conditions of special pay and promotion shall apply in the case of engineering officers recruited from services with the Provincial Governments

The rates of pay admissible to the individuals selected for these posts will be as follows:-

(i)	If Superintending Engineer of the I.S.E.	Grade pay drawn by the officer selected in the Province of his origin plus a special pay of Rs.250/-p.m.
(ii)	If Executive Engineer (I.S.E.with services of 18 years or more).	Grade pay in the I.S.E. scale of pay for Superintending Engineer.
(iii)	If Executive Engineer (I.S.E.with less than 18 years service).	Grade pay drawn by the officer selected in the Province of his origin plus a special pay of Rs.250/-p.m. On completion of 18 years' service, the Officer in this category will rank in status and term of service with the officer of category (ii).
(iv)	If junior I.S.E. Officers.	Grade pay drawn by the officers selected in the Province of their origin plus a special pay of Rs.250/-p.m.
(v)	If an officer of a Provincial Service, Class I or Class II including specialist and temporary Engineers in the provinces.	His pay will be fixed in the prescribed scale of the post in which he is appointed at the highest stage determined by the following three methods:-

I. The minimum of the prescribed scale;

II. The pay of the officer in his basic time scale (in his province) stepped up by six stages in that time scale or his pay in his basic time scale increased by Rs.300/- (whichever of the two figures is less.

III. The pay of the officer in his basic time-scale increased by Rs.200/- in the case of officers of the rank of Assistant Director or Assistant Engineer and above and Rs.100/- in the case of Extra Assistant Directors.

Note (I)- If the highest of the amounts as determined under I,II, or III above is not a stage in the prescribed scale of the post in which the officer is appointed, his pay will be fixed at the stage

next below and the difference will be paid to him as personal pay to be absorbed in future increments.

Note (2)- The term 'pay in the basic time scale' is to be interpreted in the same way as 'basic pay' under the Central Civil Services (Revision of Pay Rules 1947).

Explanation:- In the case of an officer who is appointed to a grade lower than that in which he is officiating in his province at the time of transfer, 'basic time scale' will be that applicable to the grade in which he holds a post substantively.

Note (3)- This clause (v) will have retrospective effect from 1.1.47. The pay of officers holding posts under the Central Waterpower, Irrigation and Navigation Commission from an earlier date will be re-fixed with effect from 1st January 1947 in accordance with these orders. If the sum of the previous pay plus special pay under the old orders is in excess of the sum of the pay plus personal pay admissible under these orders, the difference will be paid to the officer as personal pay to be absorbed in future increments.

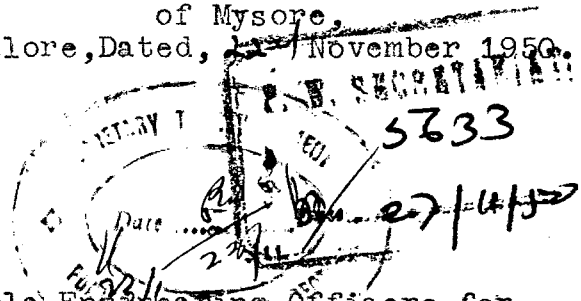
Note (4)- The pay of an Engineering officer from any province whose pay is fixed in the prescribed scale in accordance with clause (v) will not be refixed on the occasion of any subsequent grade promotion in his parent service under the next below rule, but he will be afforded protection by the grant of personal pay necessary to prevent him from losing on his basic pay.

Such of the officers coming under categories (i), (ii) & (iii) who are actually posted to stations in the Project areas will be given in addition compensatory allowance of Rs.150/-p.m. Officers under category (iv) will be allowed a similar compensatory allowance of Rs.100/- p.m. in similar circumstances.

2. These orders will take effect from the date of this letter.

SAINI.
21.7.

Sri M.N.Lakshmana Rao,B.A.,B.E., Office of the Chief Engineer
Chief Engineer of Mysore. of Mysore,
Bangalore,Dated, 22 November 1950.



D.O.NO. 7945/B

Dear Sir,

Loan of suitable Engineering Officers for appointment in the Central Designs Organisation of the Central Water Power Irrigation and Navigation Commission.

With reference to your D.O.letter No.6959 dated 20th November 1950 on the above subject, I write to - append herewith my remarks in the matter.

Yours Sincerely,
M N Lakshmana Rao
22-11-50

To

Sri B.S.Narasinga Rao,B.A.,B.E.,
Secretary to Government,
Public Works Department,
Bangalore.

REMARKS.

I would suggest the name of Sri H.C.K.Bhatta, B.A.,B.E., Senior Executive Engineer,Lakkavally Reservoir Works as a suitable Officer to be trained to occupy the place of Mr. Korpov of the Central Designs Organisation, Government of India.

Sri H.C.K.Bhatta has a good career to his credit in the Mysore Public Works Department during the period of 23 years of service he has put in. He has specialised in Irrigation Works especially High Dams- Design and Construction- having been associated with the preparation of the detailed project for the Marconahalli Reservoir (across Shimsha River) and with the construction of the dams at Thippagondanahalli (across Arkavathi River) and Hirebhasgar(Jog) (across Sharavathi river). In addition he has had opportunity to work as Assistant Secretary to Government, Public Works Department and Assistant to Chief Engineer and has thus acquired a working knowledge of administration also. At present he is specially posted as Executive Engineer for the charge of the Dam Construction at Lakkavalli (across Bhadra river) which is one of the big project now undertaken in India.

With this background of experience, I am sure Sri H.C.K. Bhatta is quite competent to occupy Mr.Korpov's place in due course.

M N Lakshmanarao

To

The Secretary to the Government of Mysore,
Public Works Department,
B a n g a l o r e.

Sir,

Re: Sri. L.C. Muniswamy Reddy, Executive Engineer

In continuation of this office U.O.No.11108/E dated 28-2-1951, I enclose herewith, for information of Government, ~~the~~ further details of the works with which Sri L.C. Muniswamy Reddy, was associated from the beginning of the service, which is since received from the Superintending Engineer.

Yours faithfully,

CHIEF ENGINEER OF MYSORE.

MR/2-3.

Letter No.2452 dated 28-2-1951 from the Executive Engineer, Tunga Anicut Division, Gajanur, to the Superintending Engineer, Tungabhadra Valley Circle, Shimoga.

With reference to your D.O.No.542 dated 27-2-1951 calling for information, in regard to the details of works I was associated with from commencement of my service, I submit herewith a detailed statement as desired.

As regards masonry dams, I was associated with the construction of two big dams one at the waste weir valley of Chamaraja sagar and the other at Marconahally, right from commencement to the finish and maintenance of Krishnarajasagar dam inclusive of protective works for two seasons.

As regards actual design, I was not associated with any except their scrutiny during construction and in the Office of the Chief Engineer for Irrigation as his personal Assistant.

While on deputation to U.S.A. during 1947, I casually visited ~~to~~ the Office of the International Engineering Company at Denver, where, by the courtesy of Dr. K.L. Rao, I went through the designs of Ramapadasagar and other high dams that were being designed in their offices.

CHIEF ENGINEER OF MYSORE 2/3

SUBJECT: LOAN OF SERVICES OF ENGINEERING OFFICERS TO CENTRAL GOVERNMENT.

U.O. No. 10353/E dated, 6-2-1951
one file.

The places where Sriyuts H.C.K. Bhatta and L.C. Muniswamy Reddy, Executive Engineers have worked from the beginning of their service, as also copy of the Confidential reports for the year ended with March 1950 are herein enclosed.

It is seen that both the officers were in charge of dam construction works and major canal works in the State.

Sri H.C.K. Bhatta Senior most Executive Engineer stands a chance of being promoted as Superintending Engineer.

N. Balasundara Rao 5/2
CHIEF ENGINEER OF MYSORE.

The Secretary to Government,
Public Works Department.

Report on the Character and work of Sri L.C.Muniswamy Reddy, B.A., B.E., Executive Engineer, Mysore Government Fertiliser Works, Bhadravati for the year ending 30th March 1950.

I.	Age	47 years 1 month
	Service Total	22 years 7 months
	In grade	Since 2-7-1947
II.	(i) Charge	Executive Engineer, Fertiliser Works, Bhdravati
	(ii) Period of charge	Since 1st September 1949
III.	Opinion and impressions in a narrative form on the following points:	
1.	(1) His knowledge of Departmental technique (ii) Condition of work in his Branch (iii) Quality of his notes and reports	Quite good
2.	Matters of official and public interest in which the Officer has specialised himself or takes special interest	He takes interest in all branches of applied Engineering, and has specially studied, during the period, design and constructional features of Civil Engineering Works connected with the Chemical Fertiliser Industry.

P. D. SECRETARIAT 5955 Date...

SECRETARY TO GOVERNMENT Date... 2/3 PUBLIC WORKS & ELE...

U.O.No. 1/108/E dated, 28-2-53

The works with which Sri L.C. Muniswamy Reddy was associated are as hereunder:-

In Irwin canal, he was in charge of Aralguppe Saddle cutting, while working as Overseer under Sri H.C. K. Bhatta, Assistant Engineer with Head Quarters at Kodiyala, he was associated with the Cauvery Branch Surveys and channel excavation. At Thippagondanahally, he was in charge of quarries and materials. He conducted Arkavathi surveys. At Markonahally, he was in charge of materials Sub Division. At Thirthahally, he was associated with Thunga Bridge work. In Jog, he was in charge of hill excavation for penstock pipes.

It may be seen that Sri H.C.K. Bhatta was associated with designs and dam constructions more closely than Sri L.C. Muniswamy Reddy.

N. Narasimhaiya
CHIEF ENGINEER OF MYSORE. 28/2

Secretary to Government,
Public Works Department

Details of works with which Sri L.C. Muniswamy Reddy, Executive Engineer, Tunga Anicut Division, was associated with from the commencement of his service.

1927-33	Excavation of Visveswaraya Canal including deep saddle cuts upto 54' depth, construction of bridges and cross drainage works.
1933-36	Construction of the waste weir dam at Chamaraja sagar
1936-37	Surveys of the possible Irrigation Projects in Arkavathy Valley inclusive of the design of three Anicuts in that Valley and various works connected with those projects.
1937-40	Construction of the Masonry dam inclusive of the syphon portion and high earthen bund at Marconahalli
1940-41	Construction of Bow String girder R.C.C. bridge the spec special feature of which is one span of 160' at Thirthahalli.
1941-45	Construction of Buildings, clearance of hill slopes and protective works and Generating station at Jog connected with Maharma Gandhi Power works.
1945-47	Personal Assistant to the Chief Engineer for Irrigation when estimates and designs connected with Lakkavalli Dam, Tunga Anicut and other Irrigation works were scrutinized.
1947	Deputation to U.S.A when a number of high dams in the Tenessee Valley and Boulder dam were visited. Also visited an earthen bund of 300' high and a high cement concrete dam under construction. Incidentally went through the design of Ramapadasagar dam under the courtesy of Dr. K.L. Rao at the International Engineering Company at Dever U.S.A..
1948-49	Maintenance of Visveswaraya canal and Krishnarajasagar Dam inclusive of the construction of protective works to waste wier.
1949	Visit to U.S.A. and the continent in eonnection with studying details of ~~the~~ construction of factories and worked with the Chemical Construction Corporation, New York.
1950	Fertiliser project at Bhadravathi
1951.	In charge of construction of Tunga Anicut.

22/1/51

Any standing orders re: this is this plans to private bodies

24/1

Supt to please

9/1 22/1/51

Sent this branch is not aware of any standing orders

25/1/51

Letter dated 6-12-1950 from the Hon.Secretary, The Madras Provincial Welfare Fund, Nellore District Branch, Nellore, to the Chief Engineer of Mysore, Bangalore.

The Nellore District Branch of the Madras Provincial Welfare Fund have decided to construct a T.B.Hospital at Nellore and we have already secured site also for the same. We have so far collected about one and a half lakhs of rupees and the donations are forthcoming due to the terrible spread of the disease in our District.

I met recently Dr. B. Jayaram, Superintendent, Rajaji's Sanatorium, Trichy, to secure plans and estimates of a T.B.Hospital for us to copy for the construction. He suggested that the following sanatoriums are up-to-date and we can secure plans to copy out the same.

Our Committee will be highly grateful if you will kindly arrange to send me the full set of plans and estimates for the following sanatoriums since we are anxious to begin construction without losing time:

1) Devanagiri sanatorium
2) Sanatorium at Bangalore (S.D.S.Sanatorium)
3) Plans of new administrative block and the new general ward (P.K.S.Sanatorium, Mysore)

Looking forward to the pleasure of receiving your esteemed reply along with plans, No.3 item in particular.

After taking copies of the plans, originals will be returned carefully.

(C o p y)

9/1

Deputy Chief Engineer.

kkm.

SUBJECT:- SELECTION OF CANDIDATE TO BE UNDER STUDY WITH MR.KARPOV,DIRECTOR,CENTRAL DESIGNS ORGANISATION, C.W.I.N.C.

U.O.No.11108/E. Dated 28-2-1951.

The works with which Sri L.C.Muniswamy Reddy was associated are as hereunder:-

In Irwin Canal, he was in charge of Aralguppe Saddle cutting. While working as Overseer under Sri H.C.K.Bhatta, Assistant Engineer, with Headquarters at Kodiyala, he was associated with the Cauvery Branch Surveys and channel excavation. At Thippagondanahally, he was in charge of quarries and materials. He conducted Arkavathi surveys. At Marconahally, he was in charge of materials Sub Division. At Thirthahally, he was associated with Thunga Bridge Work. In Jog, he was in charge of hill excavation for penstock pipes.

It may be seen that Sri H.C.K.Bhatta was associated with designs and dam constructions more closely than Sri L.C.Muniswamy Reddy.

Sd/- N.Neelakantappa
Chief Engineer of Mysore.

Secretary to Government,
Public Works Department.

"COPY"

Details of works with which Sri L.C.Muniswamy Reddy, Executive Engineer, Tunga Anicut Division, was associated with from the commencement of his service.

1927-33. Excavation of Visveswaraya Canal including deep saddle cuts upto 54' depth, construction of bridges and cross drainage works.

1933-36 Construction of the waste weir dam at Chamarajasagar.

1936-37 Surveys of the possible Irrigation Projects in Arkavathy Valley inclusive of the design of three Anicuts in that Valley and various works connected with those projects.

1937-40. Construction of the Masonry dam inclusive of the syphon portion and high earthen bund at Marconahalli.

1940-41. Construction of Bow String girder R.C.C. bridge, the special feature of which is one span of 160' at Thirthahalli.

1941-45. Construction of Buildings, clearance of hill slopes and protective works and Generating Station at Jog connected with Mahatma Gandhi Power Works.

1945-47. Personal Assistant to the Chief Engineer for Irrigation when estimates and designs connected with Lakkavalli Dam, Tunga Anicut and other Irrigation works were scrutinised.

1947- Deputation to U.S.A. when a number of high dams in the Tenessee Valley and Boulder Dam were visited. Also visited an earthen bund of 300' high and a high cement concrete dam under construction. Incidentally went through the design of Ramapadasagar dam under the courtesy of Dr.K.L.Rao at the International Engineering Company at Denver U.S.A.

1948-49. Maintenance of Viswesvaraja Canal and Krishnarajasagar Dam inclusive of the construction of protective works to waste weir.

1949- Visit to U.S.A. and the Continent in connection with studying details of construction of factories and worked with the Chemical Construction Corporation, New York.

1950- Fertilizer project at Bhadravati.

1951- In charge of construction of Tunga Anicut.

Sd/- N.Neelakantappa

Chief Engineer of Mysore.
